

CORRECTIVE AND PREVENTIVE ACTION (CAPA) REPORT

Document ID: CAPA-2026-002

Product: Tropicana Pure Premium Orange Juice

Category: FOP — Sugars

1. OBSERVATION

Sugars = 22% DV → exceeds FOP threshold.

Product contains only naturally occurring sugars and carries "No Added Sugar" claim.

2. ANALYSIS

FOP regulations apply to total sugars, not added sugars.

This creates a regulatory communication gap:

- "No Added Sugar" vs "High in Sugars"
-

3. ROOT CAUSE

Policy design prioritizes total sugar intake rather than source.

4. PREVENTIVE ACTION

Conduct portfolio-wide assessment of products with naturally occurring sugars.

Develop consumer education messaging outside packaging.

5. CONCLUSION

Not a compliance failure — demonstrates regulatory nuance.
