

CORRECTIVE AND PREVENTIVE ACTION (CAPA) REPORT

Document ID: CAPA-2026-003

Product: Miss Vickie's Sea Salt & Malt Vinegar

Category: Allergen Derivative Mapping

Status: Closed — Compliant

1. OBSERVATION

Lactose present in seasoning (milk derivative).

Label correctly states:

"Contains Milk and Barley Ingredients"

2. RISK

Derivative allergens (e.g., lactose) may be overlooked in regulatory review.

3. ROOT CAUSE (5 WHYS)

Why 1: Lactose appears as a sugar

Why 2: Not always recognized as milk derivative

Why 3: Systems focus on primary ingredients

Why 4: No standardized mapping

Why 5: Lack of centralized allergen database

4. PREVENTIVE ACTION

Develop allergen mapping system:

- Lactose → Milk
- Whey → Milk
- Casein → Milk
- Malt → Barley

5. CONCLUSION

Product is fully compliant.
Documented as a best-practice example.
